If you would like help in planning what to do during your stay in Tongue then please do not hesitate to ask a member of staff for assistance or inspiration!

Keep one step ahead of the notorious Scottish weather and check out the daily weather report and mountain area forecast in reception!

You will find lots of information in the guest lounge regarding our local area including suggested activities, visitor attractions, recommended routes and places to explore.

Should you require a packed lunch to sustain you until your return to the hotel then please enquire at reception.

But if all this sound too frenetic, then why not extend your stay, take a short stroll, relax in the guest lounge, read by the open fire, enjoy a leisurely lunch, play a board game and just watch the world go by while enjoying a fine dram!

After all, once you have made it this far north why would you want to leave?
